## Is the Garden Gnome still on the Rütli Meadow?

As far as we know, the symbol of German front gardens is still standing on the birthplace of Switzerland. Peacefully united. Although we still have a slightly ambivalent attitude towards our northern neighbour, there is more that unites us than we expect. Reason enough for us to renew last year's summer special.

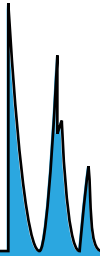

Experience a piece of Switzerland in shape and colour in your work surroundings. Until 31. August 2010 - Storage Vials marked as „X“ - meaning without a specifically defined cap colour - will be delivered colour assorted depicting a Swiss Cross.

With your storage vial order of CHF 200.00 and above you will receive a free garden gnome of your choice from Gräfenroda's garden gnome manufacturer Griebel. Gnomes are considered to represent the miners and symbolise diligence, honesty, hard work and modesty by their shortness. The gnome lives in dualism of reality and virtuality and perceptive people call him patron of home and yard. That's why the gnome, perceived as virtual personality, is given a name.

And to round it off, profit from our 50 % special! As the writer Schiller (the German) had our hero Tell (the Swiss) say: „The wise man makes provisions for the future. Check our special's corner and receive the product of your choice free of charge (1:1 in the value of your storage vial order).

But maybe you're more for established and new: now available guard cartridges with all the Halo phases for the established Halo UHPLC columns. The handtight cartridges can be used up to 1000 bar. See link below for brochure and pricelist. Would you like to test a Halo column? Please contact us!

We wish you a nice summer! And if you happen to be on the Rütli on 1. August say hello to the gnome.
